Truckee Drops 5 to 2 Contest At Grass Valley

Braves Get Four in First, Halt Truckee Rally In 10th Win

Unable to overcome a four-run lead in the first inning, the Truckee Mountaineers lost to the Grass Valley Braves in Sunday's game at Grass Valley 5 to 2.

Next Sunday, the Nevada City crew will invade the local field, the game following the barbecue starting in the morning.

That first inning at Grass Valley was a blow to the local team. Karl Kielhofer started on the mound and was having a bad time. He walked Farrell, the first man up, Hooper got on by Conners' error and Urbano hit a single, scoring Farrell. Plumtree was out Ulsheimer to Martin. Capps hit a triple, scoring Hooper and Urbano. Stack walked as did Cukiati. At that point Bill Black went in for Kielhofer and Soay popped out to White and Cukiati was caught off first, White to Martin, on a double play.

Truckee's threat came in the third inning when Ulsheimer was hit by a pitched ball with two men out. Baxter singled and Martin hit a triple, scoring the only two runs for Truckee. Grass Valley scored again in the fourth and from then on no runs crossed the plate.

Larry Baxter led his team hitting, getting two for four, both singles. Lujan hit a double in five times up and Martin's triple, which scored the two Truckee runs, was his only hit in three attempts. White, Ulsheimer and Black hit singles.

Farrell hit a perfect score, two for two, for Grass Valley, but Capps, third baseman, took all hitting honors with four hits in

WEEDEN DIES ON SAME DAY BOY IS BORN TO SON

Thursday, July 21st, was a day of mingled rejoicing and sadness at the Keith Weeden home in Oakland.

On that day, a son was born to the former Truckee couple, a fine 8½ pound boy, and word was received the same day of the death in Porterville of Weeden's father, Bert Weeden, former local businessman, who operated the Cottage Hotel here.

The elder Weeden, a veteran of the first World War and active in American Legion affairs, had been poor health some time and while his death was not unexpected it came as a shock to his many friends and relatives. The family left here several years ago to return to Porterville.

The deceased was a member of the Truckee Eagles lodge. He is survived by his wife and four children.

Mrs. Essie Polyanich, mother of the younger Mrs. Weeden, was in Oakland when her new grandson arrived.

Figures Reveal Planned School Cost In District

O'Rourke Claims Costs Would be Lower In Long Run

Figures to support the claim by the Tahoe Truckee Joint Unified School District board of trustees that costs of operating the district, retirement of the proposed bonds and other expenditures will not be as large as the present charge, were released this week by Everett O'Rourke, superintendent of the district.

A special district election has been called for August 16 at the five elementary schools in the district for the purpose of raising $750,000 through a bond issue. A two-thirds majority vote is required for approval of the issue.

The bond issue is required, O'Rourke said, for constructing and equipping a high school plant. The expenditures, if approved, will go toward providing the school, a gymnasium, homemaking rooms, wood and metal shops, science departments, library and study hall, classrooms for various subjects, bus garage and repair shop, central heating plant, water supply and offices for administrative purposes.

Comparative Costs

In comparing costs of the proposed and present systems, O'Rourke said:

"The tax rate for the retirement of the bonds at the present assessed valuation of the district will range from 47 cents to 35 cents above the operating tax base for the district. The operating tax base for the district has been set at $1.55 in compliance with the sections of the Education Code of California which refer to school taxes for unified school districts.

"This basic operating tax of $1.55 is 45 cents less than the basic operating tax which the Placer County section of the district has been paying.

"As the assessed valuation of the district increases, the tax rate for the bonds will decrease. Also, the unified school district will have a high school plant with very little additional cost above that which the taxpayers have been paying."

Tahoe Sailing Ideal, Rotarians Are Told

KINGS BEACH— With the topic "Sailing on Lake Tahoe", Kjell Rustad of Tahoe City spoke before the Rotary Club of Brockway at their noon meeting in The Gables here Monday. Rustad, an old hand at sailing under all weather conditions both in European and American waters, said that conditions for sailing on Lake Tahoe are ideal when the proper type of boat is used. He also said that several sailing accidents which have occurred on the lake were likely due to inexperience and lack of proper equipment.

There were 11 visiting Rotarians at the session.

Supervisors Study to Keep Tax Rate Down

Every effort will be made by the board of supervisors to keep the basic tax rate within the $2.06 charged last year, Supervisor H. G. Loehr indicated this week. However, there will be an upward trend in special district taxes and it may be that the basic rate will go to $2.09, he said.

Added to the basic rate for the Truckee district will be a 60 cent fire tax, 40 cents to the sanitary district and 8 cents to the cemetery district.

School taxes here this year will be assessed by the new unified district and will be $1.55.

Improvement At Donner Park Is Plan Of State

$130,475 Building Budget Before State Board For Action

Plans of the state division of beaches and parks for an expenditure of $130,475 to develop the Donner Monument area for picnicking and camping were filed this week with the state public works board.

The public works board, headed by James S. Dean, state finance director, will act on the project at a meeting being held in Los Angeles.

Funds for the development are available in the state budget but must be formally allocated to the division of beaches and parks by the public works board.

The breakdown in the application for the Donner Monument funds is as follows:

Roads and parks, $38,250; water supply, $36,975; comfort stations, $10,200; cabins for caretakers, $17,000; camp, picnic and trailer units, $11,050; and ornamental fencing, $17,000.

Meanwhile, Donald Rich, park ranger at Donner Monument, states that camping or fires are not being permitted on the park grounds this year. The lack of adequate facilities to cope with either was cited as the reason for this temporary ban by Rich.

SCHOOL BUDGET HEARING IS SET AT TAHOE AUG. 1

A public hearing on the proposed budget for the Tahoe Truckee Joint Unified School District will be held August 1 at 8 p.m. at the Tahoe Lake Elementary School, Albert F. Bequette, superintendent of schools of Placer County, announced.

The budget calls for a total expenditure of $249,485, of which $172,877 will be raised through district taxes, the balance being from state school appropriations and other sources.

The tax rate to balance the budget is fixed at $1.55 per $100 assessed valuation.

Instruction costs will account for $78,625 of the proposed budget, with administration costs being $14,600. Operation of school plant is estimated at $20,500, with maintenance costs fixed at $12,900. Auxiliary services, including transportation, was set at $26,000.

A copy of the budget may be found on another page of the Sierra Sun today.

Fifty-nine children above the age of seven years have enrolled in the swimming classes being conducted at Donner Lake by Herb Meyers and Miss Gassoway, instructors under the auspices of the Red Cross, Mrs. W. A. Loynd reported this week.

Instead of having the classes daily for five days each week, they will also be held on Saturdays for the two weeks. Groups 1, 2, 3 and 8 will be picked up each day by the school bus at the Truckee grammar school at 9 a.m. and groups 4, 5, 6 and 7 will be picked up at 10:30 a.m. at the same place to be transported to their lessons.

Sun Beams

by Walter M. Barrett

If you believe this district is entitled to the advantages obtainable only from a modern school system, with adequate educational facilities, you will favor the forthcoming school bond election. If you believe the present unsatisfactory arrangement is sufficient, you no doubt will oppose the issue, even though you learn that the cost over a period of 20 years will not be as great as at present. Sooner or later this region must have a new high school plant. Present facilities have served their purpose but with the area fast developing and more and more new families seeking permanent locations here, there is a pressing need for better school facilities. No district can advance beyond its schools. The first thing new comers ask is about schools, as everyone wants his children to receive the advantages which are available elsewhere. If we wish to attract new people and at the same time provide young people now in the district with the privileges obtainable only in modern schools, then we must support the bond issue and thus provide a much needed plant. The location of the plant for the proposed new school should not be an issue. Engineers, architects and state officials have studied many sites with open minds and have arrived at the one chosen because of its central location, accessibility and safety features. The only paramount issue at stake is whether we want a new school or will be content with what we now have.

Make a date with your family and friends to attend the benefit barbecue at the baseball park on Sunday. You will have lots of fun, a fine feed and enjoy good baseball games. Last but certainly not least you will be giving aid to your baseball team. The time: 10:30 a.m. to 2:30 p.m. Go out early and make it a good, old fashioned outing.

Beach Comber Party Held for Thimble Club

A beach combers party was enjoyed far from the sea in the home of Mrs. Frank Gaiennie on Thursday evening, July 21, by members of the Pythian Sisters Thimble Club. Mrs. Robert Tonini was co-hostess of the affair.

Costumes of every phase of life near the sea were worn, including sailor suits and grass skirts. The award for the most realistic outfit was given to Mrs. Oscar Schumacher for her portrayal of a crab fisherman, complete with net filled with small but lively crabs.

Mrs. Henry Loehr played the mandolin and all joined in singing old-time tunes and Mrs. Gaiennie recited a poem appropriate to the occasion.

Sunday Just a Bad Day for Four-Year-Old Lad

The four-year-old son of Mr. and Mrs. F. Valline of Reno escaped death Sunday when he fell from the car driven by his father while riding just east of Hirschdale. The boy in some way opened the door as the car sped along and tumbled to the road, rolling over and over.

The only injury suffered was a minor laceration on one arm.

The family was coming to Truckee to attend the 20-30 softball game when the mishap occurred. During the game, the boy stepped on a piece of broken glass and cut his foot, the injury being as great as the one experienced in the fall.

Fire Burns Over Wide Area East Of Hirschdale

Large Crew Fights Fire Tuesday as 300 Acres Are Scorched

More than 300 acres of timber and brush land just north of Highway 40, one mile east of Hirschdale, were burned over on Tuesday afternoon and night when a forest fire started from a discarded cigarette tossed onto the highway by a passing motorist.

Three hundred men, directed by District Ranger E. E. Boehm of the Truckee district, battled the blaze and late Tuesday had it under control, although flames were still raging near Cox-Delaney Flat. A number of Sierra Pacific Power Company poles were burned.

Yesterday morning the crew of fighters was reduced to 100 to patrol the fire front.

The fire was near the area where thousands of acres were burned over two years ago in a disastrous fire which went from Boca to a point near Verdi before being stopped.

UTILITY DISTRICT TAKES IN AREA AT DONNER LAKE

The recent annexation of the territory in and around Donner Lake to the Truckee Public Utility District has increased the area within the boundaries of the District to 44 square miles, according to C. Edmunds, manager of the District. The original boundaries when the District was formed in 1927 contained 17⅞ square miles. In 1945 an additional 26⅛ square miles was annexed at the request of the voters in that territory and the recent petition of the Donner Lake residents, recorded in Nevada City, adds an additional 16 square miles.

These two annexations have been brought about by a desire on the part of the inhabitants of the annexed territory to receive the advantages and benefits offered by the District.

Engineering studies are to be made of the newly annexed Donner Lake territory with a view to supplying the inhabitants therein with an adequate water supply. Considerable home building is contemplated in this territory and a water supply is urgently needed to take care of the growing demands, Edmunds said.

Plans Complete For Barbecue In Truckee Sunday

Two Softball Games Will Precede League Tilt At Outing

The long-delayed community barbecue, postponed last spring because of inclement weather, will be held Sunday at the Truckee baseball field, Business Manager R. N. Little of the Truckee Mountaineers announced.

The affair is being arranged as a benefit for the financially embarrassed baseball club and all funds derived will go toward the club's support. The barbecue will start at 10:30 Sunday morning and wind up at 2:30 when Truckee will be host to the Nevada City team in a regularly scheduled Placer-Nevada League game.

At 9:30 a.m. the Lions Club and the SP softball teams will play and at 11 a.m. the Truckee 20-30 team will engage the Hobart Mills team in what promises to be a sensational curtain raiser for the afternoon bout. Tuesday the 20-30 defeated the SP team 5 to 2 at the local diamond.

Arrangements for the barbecue are being handled by Mrs. Little and Mrs. N. F. Dolley and housewives of Truckee and Tahoe are being asked to provide the home-cooked foods which will feature baked beans, salads, cakes and other delicacies.

The public is invited and preparations are being made for the reception of upwards of 800 diners. The park is being prepared with tables and hot coffee, soft drinks and beer will be served. Patrons are asked to bring their own knives and forks.

A special invitation is being extended to county officials and residents of the other sections of the area. The affair will be in the nature of a gigantic picnic and a charge of $1.25 for adults and 75 cents for children under 14 is expected to replenish the ball club's treasury, Little said.

OFFERS MATERIAL FOR CIVIC SIGNS TO LOCAL C. OF C.

Director Jack Wolert of the Truckee Chamber of Commerce reported at the meeting Monday at California Cafe that Leland Nisbet of the Armstrong Realty at Donner Lake has donated the logs to be used in the rustic signs to be placed at the approaches to Truckee and that Charles Cross of the Truckee-Tahoe Lumber Co. is donating his loader to bring them to the sites.

The signs will be 24 feet wide and 12 feet tall when erected and will be properly lighted and artistically designed and displayed. Donations of materials are expected to minimize the cost, Wolert said, but they still will require considerable expenditure and the membership committe is hoping to raise the required sum through the current drive.

Other matters of local interest occupied the directors during the luncheon meeting. The next meeting will be held at Sarge's and everyone interested is invited to attend at noon Monday.

Highway Safety Man Speaks to 20-30 Club

Mr. Hess of the safety education section of the California Highway Patrol spoke on traffic safety and showed films at the Truckee 20-30 Club meeting Wednesday evening at Cozzi's. Guests were Floyd Roberts and Humbert Ciardella of Truckee.

Softball Club

The North Tahoe Softball Club won the fourth consecutive game Wednesday night, July 20, at Carson City, defeating the Nevada Highway Department with a score of 14 to 4. This team's new pitcher, Don Edwards, is doing some mighty fine pitching. We are glad to have him on our side. This was the first game played in the second half of the schedule. Our boys naturally hope to continue in their winning ways in order to get into the play off and bring back that championship to the North End of the Lake, as of the past two years.

Sunday, July 124, our boys couldn't stand prosperity after winning five games in a row. They gracefully dropped a game to the Carson City 20-30 Club which came to our Brockway Golf Course ball field for game and won it by a score of 19 to 9. This was a non-league affair. Absence of four of our regular players, including that fine chucker, Don Edwards, could have been a contributing factor in the loss of this match.

Sunday, July 31, at 2 p.m. on the home field our boys will meet that strong team from Sparks, which plays under the banner of Zundels' Garage.

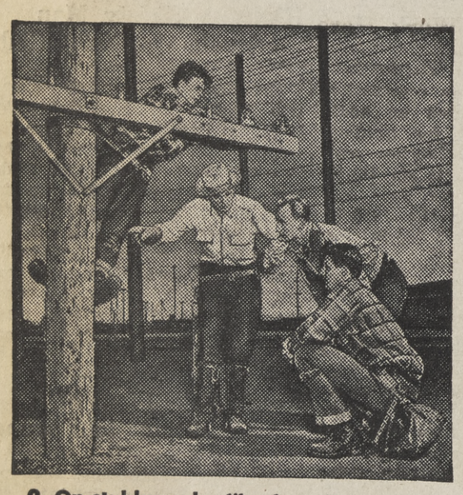
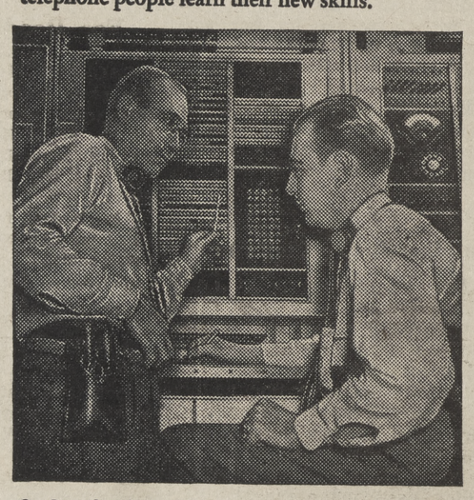
WHERE THE SPIRIT OF SERVICE BEGINS

One Coast-wide school system is for telephone people only—and better service for the West is the result

1. As this young lady learns to use a training switchboard, she'll also learn many things that will be mighty important to good service. All through her training she'll see how operators make courtesy and helpfulness a normal part of their jobs. And the same spirit is present as other telephone people learn their new skills.



2. On stubby poles like these, linemen learn to use their new climbing equipment. This is just one of the more than one hundred courses that telephone people study in towns large and small—up and down the Coast. In 1948, thousands of employees received training. That means thousands of men and women better able to furnish good service to you.



3. On-the-job-training here in the West is typified by this "student" who is learning the workings of a trouble indicator frame—an automatic detective that constantly makes sure the lines on its "beat" are giving good service. Even experienced employees take refresher courses like this to keep up-to-date . . . and keep learning their way up the ladder.

4. Good service for you comes from telephone people who know their jobs. You can help them serve you best by making sure you always have the right number in mind before calling, leaving a little time between calls, giving the called person time to answer.

Pioneer of Meeks Bay Passes at Pittsburg

TAHOE CITY— Old time residents of the Lake Tahoe area learned Saturday of the death of another old pioneer, William Warwick, who resided for many years in the Meeks Bay district where he operated the Meadow Park Resort at one time. He passed away on July 20 at Pittsburg, Calif., the victim of a heart attack.

He and his wife, Elizabeth, who survives him, were visitors at Tahoe last summer, spending several weeks of their vacation here visiting old friends. Warwick was known as one of the most colorful spinners of yarns in these parts. He was a native of Australia.

KOLO—920 ON YOUR DIAL

Sports authorities have labeled the Roaring Twenties as the Golden Age of baseball, but to a first baseman named Bill Griffiths, the Golden Age of baseball started back in 1905. His story is an incredible one, but it is recorded in sports history for all to read.

Bill Griffiths played for a team in Salt Lake City, and had a reputation as a crack infielder. But Griffith's star began to wane one season, and he blamed it on the pebbles which littered the base paths. The curse of a ballplayer's life is the ball that takes a bad hop due to hitting a pebble. Bill seemed to have more than his share of those bad balls.

The owner-manager of the team called him on it. "I don't know if it's bad fielding or pebbles," he said, "but if it happens again I'm getting myself a new first baseman."

When Bill went out to play his position the next day, he carefully went over the ground around first base and removed all the pebbles he could find, stacking them in a pile near the coach's box. No balls were going to get away from Bill Griffiths that day. He vowed to himself that he'd play errorless ball.

He did too until the ninth inning, when a batter hit a grounder down the first base line. It was an easy out. All Griffiths had to do was step on the bag. But the ball struck a pebble and bounced past him into the outfield. The batter was safe on first.

Griffiths picked up the offending pebble and jammed it in his pocket, but it was too late. An irate manager fired Griffiths after the game.

Griffiths sat glumly in the locker room after everyone else had gone, staring at the uniform he would never wear again. He reached into one pocket and pulled out the pebble which had cost him his job. He studied it for a few minutes, and then let out a yell. He dashed out of the locker room and raced over to the first base coaching box.

The pile of pebbles was still there. Griffiths scooped them all up, and left the ball park. He disappeared from his old haunts for a few days, and then turned up again, at the office of the owner-manager of the Salt Lake City team.

"How much do you want for your ball park?" he asked.

"I'll let you have the lemonade concession," sneered the manager.

"I'll give you fifty thousand dollars for the park," said Griffiths calmly, "in cash and at once."

The deal was closed that afternoon. Salt Lake City was all agog. What was Bill Griffiths going to do with a ball park? A few days later, a crew of men moved into the park, and sunk a mine shaft where first base had been. In fact, it was named the "First Base Mine."

In a few years, Bill Griffiths was a very wealthy man. And in his pocket he always carried the pebble which had caused him to be fired from baseball. Bill Griffiths liked to show his friends the streak of gold that ran through the pebble.

Some wealthy townspeople had secretly financed him when he told them that the gold had been assayed at nine hundred dollars to the ton! Yes, for the first and only time in baseball history, a ball had hit a pebble and taken a lucky bounce for an infielder!

No wonder that Bill Griffiths had decided that 1905 was really THE GOLDEN AGE OF BASEBALL!

GOOD-BYE
and fell in love in the kitchen

The amazing speed of the new electric ranges drove away my old set notion that electric cooking was slow. Glowing heat flows forth the instant I flip the switch.

Cost is very little even though I cook for a family of five big eaters. And I have found many ways to save both time and electricity by using the automatic controls on the new electric range.

No range is so easy to keep clean as my new electric. Closed units and smooth porcelain, inside and out, are as easy to clean as a china dish.

Add an Electric Water Heater and save money. I am delighted with hot water that is now on tap day and night.

Tahoe Letter

FROM SWANEE

Tahoe City, July 25th

Dear Tahoeites:

It's Monday again as I start my weekly letter and weather continues perfect in the Lake Tahoe area. Crowds seem larger as the warm weather sets in and business is reported good on all sides.

Had a call from John Thornton, former Truckee resident, who visited the lake today with his wife from their home near Fallon and combining business with pleasure while here. John reports he has lost considerable weight and is enjoying improved health, living now and for several years past on the family's 80 acre ranch where they have 20 cows and calves, some 400 chickens and raise their own corn and other vegetables.

Regretted hearing today of the stroke suffered by Henry Droste of Homewood on last Wednesday night. It occurred during the night but he withheld knowledge of it from his wife until morning, hoping it would pass. Dr. C. B. Pedersen is now caring for the patient and he must remain away from the office for some time and take life easy. His many friends wish him speedy and complete recovery in record time.

Pat Griswold, daughter of the A. M. Henrys, who makes her home in Greenfield, Mass., is anticipated home any day to spend several months—perhaps as many as six. Hr husband, Lt. Lyman William Griswold Jr., has been assigned to the Berlin airlift and will be in Europe for half a year. So Pat is coming home to visit during his absence. She will welcome the opportunity to visit her old friends and family here and especially to renew the friendship with her old classmate, Alice Sigurdsson, daughter of the Henry Solls, who, with her little Siggie, is spending the summer at Tahoe Pines from her home in far away Iceland.

Am grateful this week for a check from the Women's Club of Tahoe with which oxygen will be purchased for the Emerson resuscitator. Upkeep of this valuable emergency machine is paid through voluntary donations and its use is available to one and all at any hour of the day or night. Not only is it used for cases of submersion, but I am told it aids vitally in such illnesses as heart attacks, asthma and the like. A call to Constable Johanson's house, where the instrument is kept, or to Henry's Garage will bring quick response. Any donations are welcome in helping to provide additional tanks of oxygen for periods of emergency.

Had a most unpleasant experience last night which serves as a warning to us all not to leave valuable articles in parked cars these days, a warning our Constable Harry Johanson has sounded over the past few years. Gone are the days when one can safely go off and leave all the doors unlocked and valuable articles around the house unguarded. Tahoe's rapid expansion has brought with it people of all description and a few of them are not too honest. I left my car parked near the highway at the foot of Burnham Hill last night while I sat with the youngsters of Dr. and Mrs. Clarke Burnham and upon returning after midnight I found the door lock had been forced and the car completely ransacked. My loss fortunately wasn't large but it will serve as a reminder not to leave anything of value in it from now on.

Daughter Marie and I on Sunday accompanied Alexander C. Cushing, secretary treasurer of the Squaw Valley Development Company, into the site of their new ski resort where we spent several hours making a tour and inspection of the new Sun Valley of the west. An invitation is extended to the public to go into the valley at any time and watch the big project's development, work on which, according to Cushing, is well ahead of schedule. After seeting the layout and hearing all the proposed plans for the huge projcet, I can only say that the Truckee-Tahoe region should stand to gain world wide prestige and a vast amount of new business with the completion of the $400,000 year-round resort and the residential area which is springing up around it. Visitors are welcome so take the family in to see the resort.

Just to prove that things will be different from here on the Coast Guard last Tuesday was instrumental in picking up a speedboat and arresting its owner and operator. He was reportedly operating his boat in a careless manner at excessive speed in the Tahoma area. A report was telephoned in to Chambers' Lodge, one of four short wave stations recently installed at Tahoe, and a patrol boat was sent out immediately to pick him up. Spectators said he was buzzing rafts, wharves and smaller boats, endangering lives, and even tried to outrun the patrol boat which finally stopped him. A hearing will be held soon regarding the incident by Coast Guard officials and the new teeth in laws governing the Lake Tahoe area can bring a fine as high as $500. The other three short wave stations are at Tahoe City, Patterson's at Keller's Harbor on the south end and Cave Rock Marina on the Nevada side. Any of the four stations can contact a plane at a moment's notice and the patrol plane makes regular appearances over the lake area without adhering to a regular schedule Flotilla Commander Jack Lyon of Tahoe rode in the plane which spotted the offending speedboat, the first arrest since the laws governing speedboat operation at the lake has been inaugurated.

Was happy to hear this morning that my neighbor, Mrs. Lucille Cross, who is now in Peralta Hospital in Oakland, may not have to undergo surgery at all. She is now in traction there and may be able to return home within a week. Here's hoping.

The Women's Club of Tahoe entered three arrangements in the Truckee Wyethia Club flower show in Capitol Hall, Truckee, on Friday. Arrangments were made by Mrs. Florence Regenberg of Tahoe Tavern and won a blue ribbon and two 2nd prizes. Two were flower arrangements and one was a beautiful ming tree creation.

Will ring off for the week, sending all best wishes for happy days ahead. As ever, Swanee

Tahoe Jobs Shut Down, Carpenters Asking Boost in Rate of Pay

TAHOE CITY— A statement issued on the carpenters' strike on Monday morning by Charles Warner of Tahoe City, president of the Lake Tahoe General Contractors' Association, follows:

"Tahoe carpenters who are receiving present wages of $19 a day are striking for five cents an hour more. All jobs on Monday morning are closed down in the area with the exception of one job in the Carnelian Bay district, where one contractor is paying the increased wage rate."

The dispute started over the Associated General Contractors contract with the carpenters in the Sacramento valley. There they received a five cents raise and signed a contract with the AGC, which contract was also signd by Tahoe Local Union 2035. This nw contract, signed on July 15, concerning Lake Tahoe reads as follows: "The wage rate paid shall be the wage rate established by collective bargaining in the area herein above defined.

This area as described by the local union business agent, Ted Barrett, includes territory as far as Rainbow Tavern, Hobart Mills and the Sierra County line, Floriston, Spooner Summit and Inspiration Point at Emerald Bay.

At a meeting of the carpenters at Carpenters' Hall, Kings Beach, on Monday night the men voted 84 to 6 for the five cents per hour wage raise. All local contractors were being notified by the business agent of the carpenters' decision. A letter from Local Union 2035 setting forth their demands for $2.42½ per hour was delivered to contractors Tuesday morning.

Wine was produced in Egypt as early as 2400 B.C.

Traces of Lost Civilization Seen On Donner Summit Granite Bed

Axel Gravander, writing in the Union of Grass Valley this week, dwelt at some lengths on the rock carvings to be found in the mountains of California, indications of an ancient lost civilization. Since a portion of the article was concerned with those at Donner Summit, we reprint a portion of his article which will be of interest to students of the lore of this area:

Nevada County has a share in these fascinating and tantalizing proofs of California's ancient people, a period which might well hark back to or even considerably exceed four thousand years when some of the giant redwoods were young saplings and Cheops built pyramids along the Nile.

All over California on both Sierra Nevada and the Coast Range are scattered a little over two hundred of these rock writings, both petroglyphs and pictographs. Some are to be found at Meadow Lake at an elevation of 7400 feet. They are carved in the granite rocks, curvilinear in style and showing several circles, concentric, crossed and variously connected with curved lines. Wavy lines also occur.

Many at Donner

Another group within evada County is centered around Donner Summit. They are described as follows in the Julian H. Steward catalogue:

"They occur in the glaciated rock basin of Donner Pass right below tunnel No. 8 on the Southern Pacific railroad, covering approximately one-fourth acre of the basin floor. Some of the characters were very indistinct and some few lines uncertain, but on the whole you can rely on these copies as fairly accurate."

J. C. Hawver, Auburn, Calif., letter of March 20, 1909: "The hieroglyphics are located on an inclined flow of granite which stretches down from tunnel No. 7 to the Donner road on the Central Pacific railroad. The summit station tunnel is known as No. 6 and precedes No. 7 by about 100 yards. The old Donner stage road crosses the rail road at the eastern mouth of tunnel No. 6 and then winds down toward Donner Lake, which is three miles distant. It has been customary for persons walking from Truckee to the summit to cut across the large bends of the road to save time. The hieroglyphics are on the granite flow which made the second bend in the road necessary, counting down from the railroad crossing. It is possible that it might be the third instead of the second."

"A granite table located at the Summit Soda Springs had some of the best specimens of Indian writing that I have seen but unfortunately the surface of the granite has been scaling off quite rapidly during the past few years and now the best work has perished, leaving similar hieroglyphics to those referred to above." (Philip R. Thayer, San Francisco, letter of November 2, 1903).

Message from Ancients

Only one thing about the petroglphs is sure: they are definitely a message from some early unknown people that inhabited the Pacific coast fringe from Alaska to the tip of South America. What their message is nobody knows.

Some scientists fix the minimum age at three hundred years but most of them seem inclined to go up to a thousand, perhaps many thousands. Many petroglyphs seem to point to the Basket Makers era, which dates back to 1500 to 2000 B.C. It has also beeln observed that the local petroglyphs have a striking resemblance to those found in widely separated parts of both North and South America.

Lost Civilization

Our petroglphs hint strongly at a lost civilzation of the Sierra Nevada. It is not at all impossible that these rock inscriptions hold the secret of the shadowy centuries before 1500. The miserable Indians that greeted Cabrillo, Portola, Junipero Serra were tribes without traditions of a past and without incentives for a future. These wasting tribes might conceivably have been degenerated descendants from weakened stragglers left behind a fabled trek down the Pacific slope of the founders of a flowering civilization in Central and South America.

There is a move afoot to have the state intervene to preserve these petroglyphs so that they will not be damaged and to preserve them for future archeological study.

New Snow Removal Equipment Bought For Truckee Streets

Truckee streets and county roads in the fifth supervisorial district will be plowed during the winter with a Sno-Go recently purchased through the efforts of Supervisor H. G. Loehr. The new equipment is expected to relieve a bad situation which has previously resulted here from severe winters with heavy snow.

The new equipment will supplement present snow plows and bulldozers which have been used in the past.

Went up to the Wyethia flower show last Friday evening.....and was very pleased with what I saw.....The ladies did the thing up right and the display was really a credit to the community .....Florence Waters and Gladys Dolley showed off their latest creations from ceramics class which showed a lot of ability..... and hard work.....The table of Brownie Troop No. 1 gives rise for praise for this new group of young ladies.....All in all, really a fine show.....but already the ladies are aiming for a bigger and better one next year.....Saw Judge and Mrs. George Jones of Nevada City expressly for the show.....The judge still has a warm spot in his heart for the town of his birth.....Truckee.....

●

Wish I could have been at the Pythian Sisters' Thimble Club beachcomber party....replete with grass skirts.....which proved a bit chilly so far from the salt water and tropic isles.....N. F. Dolley sporting another badge..... that of state fire warden.....while he helped out on the Hirschdale burn.....Pike Boehm, our district ranger, looking awfully tired Wednesday.....while catching his breath to take a fresh start at the fire.....We could see the red glow cooking the clouds in the night sky from our house on the hill.....Sure was a hot one that .....and more than a little heartbreaking too.....Beards I missed a couple of weeks ago were Oscar Schumacher's neat goatee and the ones of the brothers Sassarini.....Marie Fitzpatrick lost a lot of her fine color down in the Mojave Desert.....and we hope she gains it all back now that she's back among us to stay.....Young Bill Englehart giving out stogies with a proud smile.....and Vern Shattuck tells us that Bill's newest daughter is a pretty little thing.....A "Construction Zone - Drive Carefully" sign opposite Loynd's on the main stem means the highway project is moving this way..... Father Jerry Boland is not his family's only contribution to the Church.....one of his brothers is a priest in Sacramento, another in India and his only sister is a nun in Ireland.....George Melody, dispatcher this summer for the forest service here, is American Legion department sergeant at arms in Nevada.....Hes Cardinal, new commander of the Legion here, has an ambitious program started for this year.....Watch for it.....Mrs. E. Kahler off to Sacramento where her daughter underwent an emergency appendectomy this week.....Still have some kittens left.....Hope some one can make a place for one in their heart and home.....

In a nip and tuck softball game here Sunday, the Truckee 20-30 team walloped the 20-30's from Reno 4 to 3, despite the fact the visitors banged out two home runs, one with a man on base.

The Truckee team was errorless in the field behind the pitching of Johnny Gracik, accomplishing two double plays and otherwise playing a tight game. Following the game the club members and their families enjoyed a picnic at Donner Lake.

ABBIE an' SLATS by RAEBURN VAN BUREN

WINNER OF THE COVETED AWARD, "MR. AMERICAN GRANDMOTHERS' DELIGHT OF 1949".. BATHLESS GROGGINS IS ABOUT TO MEET HIS CO-STAR FOR THE FIRST ROUN-- --ER-TIME!

FOR A MISERABLE, BROKEN-DOWN BUM, LITERALLY PLUCKED FROM THE GUTTER, GROGGINS, WHAT IS ABOUT TO HAPPEN TO YOU WILL MAKE MOVIE HISTORY--("IF YOU LIVE THROUGH IT, THAT IS.")

FLATTERY WILL GET YOU NOWHERE, FAT BOY—NOW STOP STALLIN' AN' BRING ON TH' LUCKY LITTLE LADY I MAKES **LOVE** TO!

SHE SAID WITH WHAT SHE HAD TO FACE TODAY, SHE WANTED A **DOUBLE DOSE** OF HER **STRONGEST** PERFUME!

I AIN'T TAKING ANY CHANCES

I HID HER SOLID BRASS KNUCKLES, CAMOUFLAGED HER (SHUDDER!) CYANAMIDE, AND STUFFED ALL OF HER BLUNT INSTRUMENTS INTO A WARDROBE TRUNK!

NOW DON'T BE NERVOUS, HONEY. REMEMBER YER PLAYIN' OPPOSITE THE **STAR** O' "THE STRANGE LOVES O' BILGE-WATER BENNY" WHICH RUN FOR **TWO CONSECUTIVE RIOTS** IN SINGAPORE! IT WOULDA STILL BEEN RUNNIN' IF IT WASN'T FER THE AUDIENCE TRYIN' T' MURDER THE CAST INSTEAD O' ACCEPTIN' THEIR **MONEY BACK!**

NOT **HER**, YOU **FOOL!!**

AH! HERE SHE IS! BABY BETTY, THE **DARLING** OF THE MOTION PICTURE WORLD — SAY SOMETHING **NICE** TO MR. GROGGINS, BABY, HONEY!

NATURALLY, I'M DISAPPOINTED YOU AIN'T A **LITTLE OLDER**, CHILD, BUT SINCE YOU'RE SO CUTE AN' POLITE AN' LOVABLE, I AIN'T PROTESTIN'!

7-31

NOW—BABY BETTY, YOU'RE GREETING LOVABLE OL' GRAMPS AFTER NOT SEEING HIM FOR A WHILE—YOU STROKE HIS FACE **GENTLY**—READY!

T-TELL ME WHEN THIS **GHASTLY THING** IS OVER—I **CAN'T WATCH!**

DON'T LET THE BRISTLES O' MY BEARD SCRATCH YER DELICATE LITTLE HAND, LITTLE LADY!

DON'T WORRY, I **WON'T**

HIX'S STRANGE as it seems

THE "CALIFORNIA STAR EXPRESS" - A MULE TRAIN, MADE ITS FIRST AND ONLY RUN FROM SAN FRANCISCO, CALIF., TO INDEPENDENCE, MO., IN ORDER TO REACH A GREATER CIRCLE OF READERS FOR A SPECIAL EDITION OF THE CALIFORNIA STAR.... PASSAGE WAS GUARANTEED TO BE ACCOMPLISHED IN **60** DAYS.... POSTAGE ON A SINGLE LETTER WAS **50** CENTS! -April 1, 1848-

THE **COLOSSUS** OF **RHODES**, ONE OF THE SEVEN WONDERS OF THE ANCIENT WORLD, DID NOT STAND ASTRIDE THE ENTRANCE TO THE HARBOR OF RHODES AS INTIMATED IN SHAKESPEARE'S "JULIUS CEASAR," ACT I, SCENE 2.

THERE IS NOTHING TO INDICATE EXACTLY WHERE IT STOOD ...

LARVAE OF THE MASKED BUG COVER THEMSELVES WITH DUST OR FLUFF IN ORDER TO CREEP UPON THEIR PREY UNOBSERVED!

THE GLASS SNAKE, *of Southern Europe*, IS NOT A SNAKE BUT A LIZARD-- HAVING MOVABLE EYELIDS AND EXTERNAL EAR OPENINGS!

JOHN PETER ZENGER, *German immigrant*, ESTABLISHED THE AMERICAN RIGHT OF FREEDOM OF THE PRESS AND OF SPEECH WHEN HE WAS ACQUITTED OF LIBEL IN 1735... HE EDITED HIS PAPER FOR 9 MONTHS FROM HIS NEW YORK JAIL CELL!
